

Procurement – Federal Programs

~~This document is intended to integrate standard district purchasing procedures with additional~~ requirements applicable to procurements that are subject to the federal Uniform Grant Guidance regulations and/or U.S. Department of Agriculture (USDA). The district maintains the following purchasing procedures, in accordance with federal and state laws, regulations and Board policy.

Responsibility for Purchasing

The Board has outlined standard district purchasing responsibility, methods of purchasing, price quotations and bid requirements in the following Board policies and their accompanying administrative regulations or procedures:

- Board Policy 4:60 Operational Services-Purchases and Contracts
- Board Policy 4:55 Operational Services-Use of Credit and Procurement Cards
- Board Policy 4:50 Operational Services-Payment Procedures
- Board Policy 4:70 Operational Services-Resource Conservation
- Board Policy 4:80 Operational Services-Accounting and Audits

Purchase Methods

When a request for purchase of equipment, supplies or services has been submitted and approved as outlined below, the procurement method to be used will be determined based on the total cost of the purchase according to board policy. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law apply when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply, so as to comply with both state and federal requirements. Final determination of which purchasing procedures are to be applied is delegated to the

{ X } Business Manager

Superintendent

under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The district shall use

purchase orders

requisitions

for purchase requests in accordance with the applicable purchase method.

The district shall use

paper

electronic

purchasing records, which are accessible to designated purchasing staff in

the district office.

the Business Office.

Purchasing agent's office.

Other_____.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the

Board Secretary.

Business Manager.

Superintendent.

Purchasing Agent.

Purchase orders and requisitions shall contain information including, but not limited to:

1. Description of the services to be performed or goods to be delivered.

-
-
2. Location of where services will be performed or goods will be delivered.
 3. Appropriate dates of service or delivery.
 4. Other (describe)_____.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Records Management Policy and records retention schedule.

Contracts shall be reviewed by the

- Board Secretary
- Business Manager
- Superintendent
- school solicitor

prior to submission to the Board for approval.

To the extent practicable, the district distributes purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices and other terms. The

- Superintendent
- Business Manager
- Purchasing Agent
- Board Secretary

will be responsible to determine the equitable distribution of purchases.

Purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. However, the district will always try to obtain at least 2 quotes for purchases even if bidding is not required. The district will maintain evidence of this reasonableness in the records of all purchases. **Reasonable** means that sound business practices were followed and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Formal Competitive Bidding (\$25,000 or more)

Publicly Solicited Sealed Competitive Bids:

For purchases of equipment or supplies, or of services for construction, maintenance or repairs of school facilities, sealed competitive bids are publicly solicited and awarded to the lowest responsive and responsible bidder as provided in Policy 4:60 when the total cost is estimated to be \$25,000 or more (\$50,000 for construction) .

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than construction, repairs or maintenance of school facilities, for which competitive bidding is required if the cost will be a base amount of \$25,000 or more. State law allows competitive proposals relating to work on facilities in lieu of bidding only in the context of guaranteed energy savings contracts.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, Board policy and administrative regulations regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

Competitive proposals shall be evaluated by the

Superintendent

Business Manager

Federal Programs Coordinator

based on factors including but not limited to:

1. Cost.

Experience of contractor.

Availability.

Personnel qualifications.

Financial stability.

Minority business, women's business enterprise, or labor surplus area firm status.

Project management expertise.

Understanding of district needs.

Other _____.

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the

Board.

Superintendent.

Business Manager.

Federal Programs Coordinator.

school solicitor.

Contract/Price Analysis:

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the

Superintendent

Business Manager

Federal Programs Coordinator

must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)).

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.
4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the Business Office.

All noncompetitive proposals will ultimately be approved by the Board. The district may utilize legal advice from the solicitor regarding noncompetitive proposals.

Purchase Cards

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs. The use of procurement cards is governed by Board policy 625 Procurement Cards and established administrative regulations. (Pol. 625)

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.
4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

EDGAR further requires the following to ensure adequate competition.

Minority Businesses, Women's Business Enterprises, Labor Surplus Area Firms

The district must take necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women's business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

Geographical Preferences Prohibited

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services.

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable requirements and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The

{ X } Business Manager

{ } Federal Programs Coordinator

will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, established district administrative regulations and the advice of the solicitor.

Operational Services

Purchases and Contracts

The Superintendent shall manage the District's purchases and contracts in accordance with the law, the standards set forth in this policy, and other applicable Board policies.

Standards for Purchasing and Contracting

All purchases and contracts shall be entered into in accordance with Illinois law. The Board Attorney shall be consulted as needed regarding the legal requirements for purchases or contracts. All contracts shall be approved or authorized by the Board of Education.

All purchases and contracts should support a recognized District function or purpose as well as provide for good quality products and services at the lowest cost, with consideration for service, reliability, and delivery promptness, and in compliance with State law. No purchase or contract shall be made or entered into as a result of favoritism, extravagance, fraud, or corruption.

Adoption of the annual budget authorizes the Superintendent or designee to purchase budgeted supplies, equipment, and services, provided that State law is followed. Purchases of items outside budget parameters require prior Board approval, except in an emergency.

When presenting a contract or purchase for Board approval, the Superintendent or designee shall ensure that it complies with applicable State law, including but not limited to, those specified below:

1. Supplies, materials, or work involving an expenditure in excess of \$10,000 must comply with the State law bidding procedure, 105 ILCS 5/10-20.21, unless specifically exempted.
2. Construction, lease, or purchase of school buildings must comply with State law and Board policy 4:150, *Facility Management and Building Programs*.
3. Guaranteed energy savings must comply with 105 ILCS 5/19b-1 et seq.
4. Third party non-instructional services must comply with 105 ILCS 5/10-22.34c.
5. Goods and services that are intended to generate revenue and other remunerations for the District in excess of \$1,000, including without limitation vending machine contracts, sports and other attire, class rings, and photographic services, must comply with 105 ILCS 5/10-20.21. The Superintendent or designee shall keep a record of: (1) each vendor, product, or service provided, (2) the actual net revenue and non-monetary remuneration from each contract or agreement, and (3) how the revenue was used and to whom the non-monetary remuneration was distributed. The Superintendent or designee shall report this information to the Board by completing the necessary forms that must be attached to the District's annual budget.
6. Any contract to purchase food with a bidder or offeror must comply with 105 ILCS 5/10-20.21(b-10).
7. The purchase of paper and paper products must comply with 105 ILCS 5/10-20.19c and Board policy 4:70, *Resource Conservation*.
8. Each contractor with the District is bound by each of the following:
 - a. In accordance with 105 ILCS 5/10-21.9(f): (1) prohibit any of its employees who is or was found guilty of a criminal offense listed in 105 ILCS 5/10-21.9(c) and 5/21B-80(c) to have direct, daily contact at a District school or school-related activity with one or more student(s); (2) prohibits any of the contractor's employees from having direct, daily contact with one or more students if the employee was found guilty of any offense in 5/21B-80(b) (certain drug offenses) until seven years following the end of the employee's sentence for the criminal offense; and (3) require each of its employees who will have

direct, daily contact with student(s) to cooperate during the District's fingerprint-based criminal history records check on him or her.

- b. In accordance with 105 ILCS 5/24-5: (1) concerning each employee who begins providing services in the District after June 16, 2014, provide the District with evidence of physical fitness to perform the duties assigned and freedom from communicable disease if the employee will have direct, daily contact with one or more student(s); and (2) require any new or existing employee who has and will have direct, daily contact with one or more student(s) to complete additional health examinations as required by the District and be subject to additional health examinations, including tuberculosis screening, as required by the Illinois Department of Public Health rules or order of a local health official.

The Superintendent or designee shall: (1) execute the reporting and website posting mandates in State law concerning District contracts, and (2) monitor the discharge of contracts, contractors' performances, and the quality and value of services or products being provided.

LEGAL REF.: 105 ILCS 5/10-20.19c, 5/10-20.21, 5/10-21.9, 5/10-22.34c, 5/19b-1 et seq., and 5/24-5.

Operational Services

Use of Credit and Procurement Cards

The Superintendent and employees designated by the Superintendent are authorized to use District credit and procurement cards to simplify the acquisition, receipt, and payment of purchases and travel expenses incurred on the District's behalf. Credit and procurement cards shall only be used for those expenses that are for the District's benefit and serve a valid and proper public purpose; they shall not be used for personal purchases. Cardholders are responsible for exercising due care and judgment and for acting in the District's best interests.

The Superintendent or designee shall manage the use of District credit and procurement cards by employees. It is the Board's responsibility, through the audit and approval process, to determine whether District credit and procurement card use by the Superintendent is appropriate.

The District may from time-to-time issue and/or authorize Board members to use District credit cards to simplify the payment of actual and necessary expenses as authorized in Board policy 2:125, *Board Meetings Expenses*. The Board will determine whether a Board member's use of a District credit card is appropriate through the expense approval process and the annual audit. All other components of this policy apply to a board member's use of a District credit card.

In addition to the other limitations contained in this and other Board policies, District credit and procurement cards are governed by the following restrictions:

1. Credit and/or procurement cards may only be used to pay certain job-related expenses or to make purchases on behalf of the Board or District or any student activity fund, or for purposes that would otherwise be addressed through a conventional revolving fund.
2. The Superintendent or designee shall instruct the issuing bank to block the cards' use at unapproved merchants.
3. Each cardholder, other than the Superintendent, may charge no more than \$500 in a single purchase and no more than \$1000 within a given month without prior authorization from the Superintendent.
4. The Superintendent or designee must approve the use of a District credit or procurement card whenever such use is by telephone, fax, and the Internet. Permission shall be withheld when the use violates any Board policy, is from a vendor whose reputation has not been verified, or would be more expensive than if another available payment method were used.
5. The consequences for unauthorized purchases include, but are not limited to, reimbursing the District for the purchase amount, loss of cardholding privileges, and, if made by an employee, discipline up to and including discharge.
6. All cardholders must sign a statement affirming that they are familiar with this policy.
7. The Superintendent shall implement a process whereby all purchases using a District credit or procurement card are reviewed and approved by someone other than the cardholder or someone under the cardholder's supervision.
8. Cardholders must submit the original, itemized receipt to document all purchases.
9. No individual may use a District credit or procurement card to make purchases in a manner contrary to State law, including, but not limited to, the bidding and other purchasing requirements in 105 ILCS 5/10-20.21, or any Board policy.

10. The Superintendent or designee shall account for any financial or material reward or rebate offered by the company or institution issuing the District credit or procurement card and shall ensure that it is used for the District's benefit.

Operational Services

Payment Procedures

The Treasurer shall prepare a list of all due and payable bills, indicating vendor name and amount, and shall present it to the Board of Education in advance of the Board's first regular monthly meeting or, if necessary, a special meeting. These bills shall be reviewed by the Board of Education, after which they may be approved for payment by Board of Education order. Approval of all bills shall be given by a roll call vote and the votes shall be recorded in the minutes. The Treasurer shall pay the bills after receiving a Board of Education order or pertinent portions of the Board minutes, even if the minutes are unapproved, provided the order or minutes are signed by the Board President and Secretary, or a majority of the Board.

The Treasurer is authorized, without further Board approval, to pay Social Security taxes, wages, pension contributions, utility bills, and other recurring bills. These disbursements shall be included in the listing of bills presented to the Board of Education.

Revolving funds for school cafeterias, athletics, petty cash, or similar purposes may be used, provided such funds are maintained in accordance with Board policy 4:80, *Accounting and Audits*, and remain in the custody of an employee who is properly bonded according to State law.

Resource Conservation

The School District will conserve energy resources by:

1. Periodic review of procurement procedures and specifications to ensure that purchased products and supplies are reusable, durable, or made from recycled materials, if economically and practically feasible.
2. Purchasing recycled paper and paper products in amounts that will, at a minimum, meet the specifications in the School Code, if economically and practically feasible.
3. Periodic review of procedures on the reduction of solid waste generated by academic, administrative, and other institutional functions. These procedures shall: (a) require recycling the District's waste stream, including landscape waste, computer paper, and white office paper, if economically and practically feasible; (b) include investigation of the feasibility of potential markets for other recyclable materials that are present in the District's waste stream; and (c) be designed to achieve, before July 1, 2020, at least a 50% reduction in the amount of solid waste that is generated by the District.
4. Adherence to energy conservation measures.

LEGAL REF.: 105 ILCS 5/10-20.19c.

Operational Services

Accounting and Audits

The School District's accounting and audit services shall comply with the *Requirements for Accounting, Budgeting, Financial Reporting, and Auditing*, as adopted by the Illinois State Board of Education, State and federal laws and regulations, and generally accepted accounting principles. Determination of liabilities and assets, prioritization of expenditures of governmental funds, and provisions for accounting disclosures shall be made in accordance with government accounting standards as directed by the auditor designated by the Board. The Superintendent, in addition to other assigned financial responsibilities, shall report monthly on the District's financial performance, both income and expense, in relation to the financial plan represented in the budget.

Annual Audit

At the close of each fiscal year, the Superintendent shall arrange an audit of the District funds, accounts, statements, and other financial matters. The audit shall be performed by an independent certified public accountant designated by the Board and be conducted in conformance with prescribed standards and legal requirements. A complete and detailed written audit report shall be provided to each Board member and to the Superintendent. The Board will periodically advertise a request for proposals to perform the external audit.

The Superintendent shall annually, on or before October 15, submit an original and one copy of the audit to the Regional Superintendent of Schools.

Annual Financial Report

The Superintendent or designee shall annually prepare and submit the Annual Financial Report on a timely basis using the form adopted by the Illinois State Board of Education. The Superintendent shall review and discuss the Annual Financial Report with the Board before it is submitted.

Inventories

The Superintendent or designee is responsible for establishing and maintaining accurate inventory records. The inventory record of supplies and equipment shall include a description of each item, quantity, location, purchase date, and cost or estimated replacement cost.

Disposition of District Property

The Superintendent or designee shall notify the Board, as necessary, of the following so that the Board may consider its disposition: (1) District personal property (property other than buildings and land) that is no longer needed for school purposes, and (2) school site, building, or other real estate that is unnecessary, unsuitable, or inconvenient. Notwithstanding the above, the Superintendent or designee may unilaterally dispose of personal property of a diminutive value.

Controls for Revolving Funds and Petty Cash

Revolving funds and the petty cash system are established in Board policy 4:50, *Payment Procedures*. The Superintendent shall: (1) designate a custodian for each revolving fund and petty cash fund, (2) obtain a bond for each fund custodian, and (3) maintain the funds in compliance with this policy, State law, and Illinois State Board of Education rules. A check for the petty cash fund may be drawn payable to the designated petty cash custodian. Each revolving fund shall be maintained in a bank that has been approved by the Board and established in an amount approved by the Superintendent

consistent with the annual budget All expenditures from these bank accounts must be directly related to the purpose for which the account was established and supported with documentation, including signed invoices or receipts. All deposits into these bank accounts must be accompanied with a clear description of their intended purpose. The Superintendent or designee shall include checks written to reimburse revolving funds on the Board's monthly listing of bills indicating the recipient and including an explanation.

Control Requirements for Checks

The Board must approve all bank accounts opened or established in the District's or a District school's name or with the District's Federal Employer Identification Number. All checks issued by the School District must be signed by either the Treasurer or Board President, except that checks from an account containing student activity funds and revolving accounts may be signed by the respective account custodian.

Internal Controls

The Superintendent is primarily responsible for establishing and implementing a system of internal controls for safeguarding the District's financial condition; the Board, however, will oversee these safeguards. The control objectives are to ensure efficient business and financial practices, reliable financial reporting, and compliance with State law and Board policies, and to prevent losses from fraud, employee error, misrepresentation by third parties, or imprudent employee action.

The Superintendent or designee shall annually audit the District's financial and business operations for compliance with established internal controls and provide the results to the Board. The Board may from time-to-time engage a third-party to audit internal controls in addition to the annual audit.
