BlueCross BlueShield of Illinois

PHARMACY AND PRESCRIPTION PLAN INFORMATION

Prescription drugs are a vital part of your health care coverage. If you have prescription drug coverage through Blue Cross and Blue Shield of Illinois (BCBSIL), this information can help you and your doctor get the most from your prescription drug coverage.

If you are a BCBSIL member, log in to your **Blue Access for Members<sup>SM</sup> (BAM<sup>SM</sup>)** account to check your drug list and learn more about your prescription drug benefits. Be sure to review your benefit materials for details. If you have any questions about your prescription drug benefits, call the number on your member ID card.

**PRESCRIPTION DRUG LIST**

A drug list is a list of drugs that are covered under your prescription drug benefit. How much you pay out of pocket is determined by whether your drug is on the list and at what coverage level, or tier. A **generic drug** is often at the lower tier. *See if your drug is covered.*

Some prescription drug plans may require you to pay more if you fill a prescription for a brand name drug when a **generic equivalent** is available. This **Member Pay the Difference** program encourages members to use drugs that are safe, work well and are cost effective.

**Please note:** Health plans may administer medical and pharmacy coverage separately for select drugs. Some drugs are covered under your medical plan instead of your pharmacy benefits. These can include drugs that must be given to you by a health care provider. These drugs are often given to you in a hospital, doctor's office or health care setting. Examples of these drugs are contraceptive implants and chemo infusion. If you are taking or prescribed a drug that is not on your plan's Drug List, call the number on your member ID card to see if this drug may be covered by your medical plan.

**NEARBY PHARMACIES AND HOME DELIVERY**

BCBSIL has a broad network of contracting pharmacies. To use your benefits, simply find a local contracting pharmacy and show your member ID card.

## PRESCRIPTION DRUG LISTS

A drug list, is a list of drugs available to Blue Cross and Blue Shield of Illinois (BCBSIL) members. How much you pay out-of-pocket for prescription drugs is determined by whether your medication is on the list. These prescription drug lists have different levels of coverage, which are called "tiers". Generally, if you choose a drug that is a lower tier, your out-of-pocket costs for a prescription drug will be less. Your doctor should consult the Drug List when prescribing drugs for you. This may help lower your out-of-pocket costs.

If you are a BCBSIL member, log in to your [Blue Access for Members<sup>SM</sup>](#) account to check your drug list and learn more about your prescription drug benefits. Be sure to review your benefit materials for details. If you have any questions about your prescription drug benefits, call the number on your member ID card.

**Please note:** Health plans may administer medical and pharmacy coverage separately for select drugs. Some drugs are covered under your medical plan instead of your pharmacy benefits. These can include drugs that must be given to you by a health care provider. These drugs are often given to you in a hospital, doctor's office or health care setting. Examples of these drugs are contraceptive implants and chemo infusion. If you are taking or prescribed a drug that is not on your plan's Drug List, call the number on your member ID card to see if the drug may be covered by your medical plan.

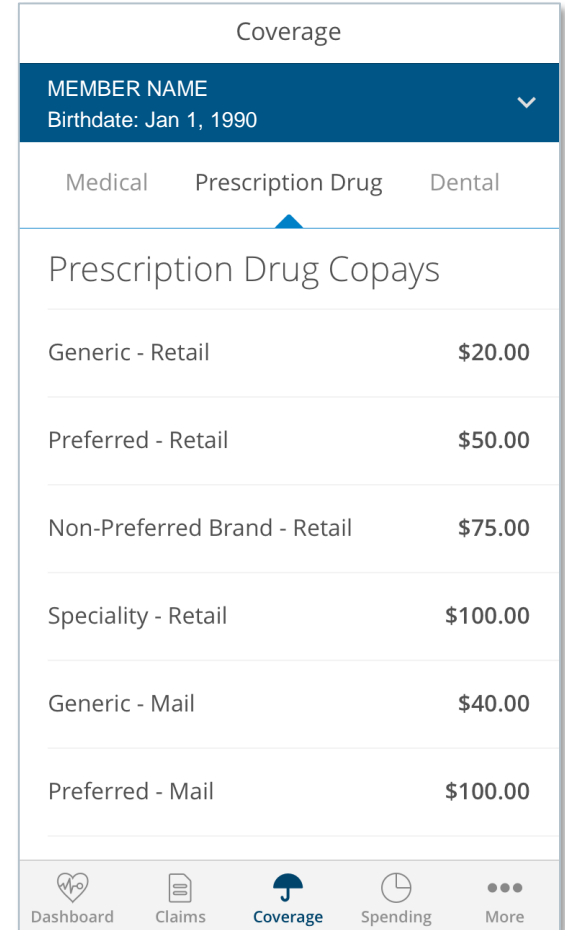

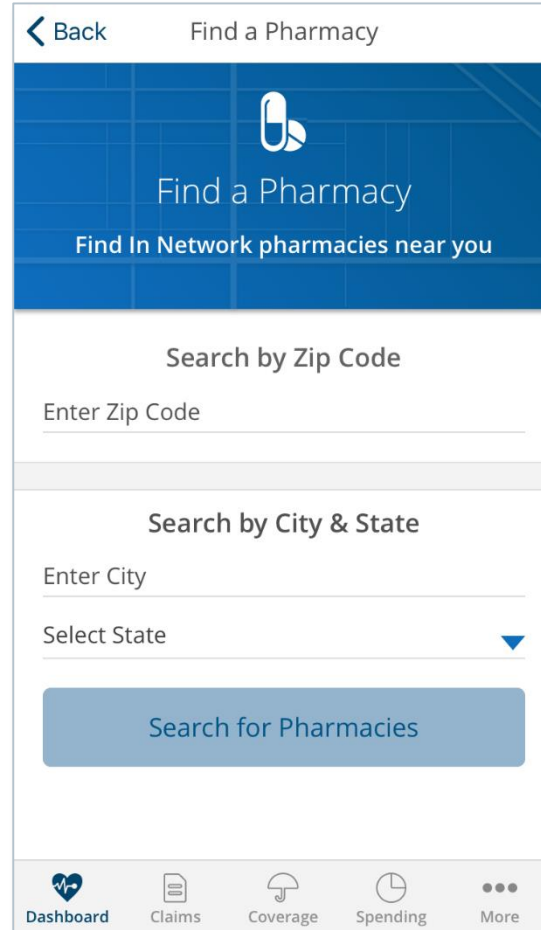

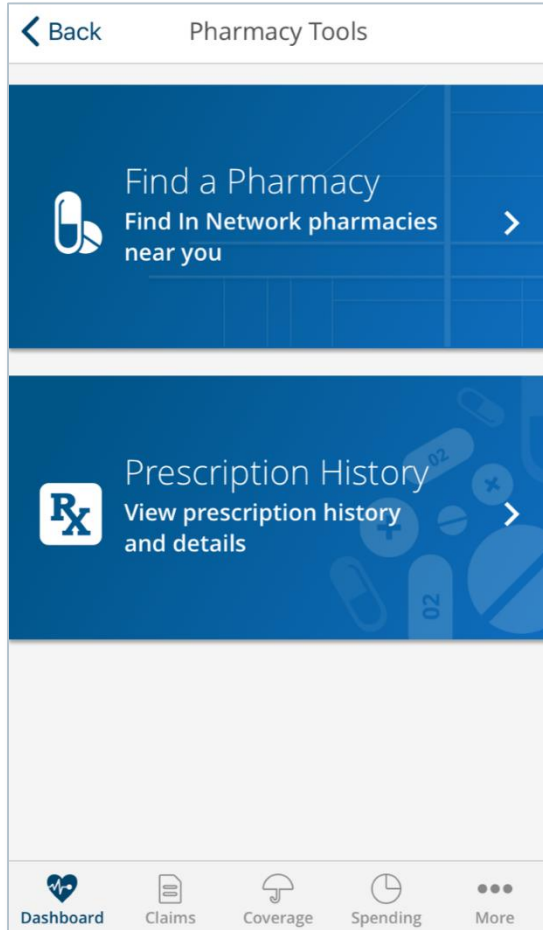

- Prescription Drug Lists for Metallic Individual Plans** +
